Crack-It

About

Let's face it, debugging code is difficult. Well, this event is all debugging.

Prerequisites

- Familiarity with the Linux Environment (Basic).
- C Programming Language.

Rules

1. First Round (10 minutes): There will be 10 multiple choice questions in the first round. Qualify for the second round by being in the top 50 percentile in the first round.
2. Second Round (20 minutes): Four erroneous C Programming codes will be given to be debugged.

Participation

Individual. Open to all.
